

St Teresa's Catholic Primary School Sports Premium Strategy Overview 2016/17

Academic year	2016/17	Total SPG budget	£9,180 (Sept 16-July 17)	Date of most recent SPG review	July 2017
Total number of pupils	279			Date for next internal review	October 2017

<u>Key objectives</u>	<u>Strategies implemented</u>	<u>Cost</u>	<u>Impact</u>	<u>Next steps</u>
Increase the provision of specialist coaching.	Hired qualified sport coaches from South Ribble School Partnership to deliver PE sessions alongside class teachers.	£4245	Teacher's developed in confidence in planning and delivering PE. Children received high quality teaching from specialised coaches with expertise and experience in their own fields.	Continue with full day programme throughout the year. Review coverage and implement new areas of the curriculum, i.e. OAA. Potentially use same coaches to deliver extra-curricular activities after school.
Increase physical activity participation during lunch times.	Hired sports coaches 4 days a week to deliver a range of physical activities with each year group per day.	£134 per week for approx. 22 weeks	Although children were engaged during lunch times, this was not sustainable due to cost implications.	Liaise with school council for 'Zoning' initiative to promote physical education and pupil participation. Once implemented, funding will be minimal.
Increase participation in competitive sport	South Ribble competitions entered: - Football league - High 5 Netball - Athletics - Gymnastics - Inclusion events	£1050	Children had opportunities to compete against other children from other schools in a particular sport. Children who lack confidence in PE were thoroughly engaged and responded well to the inclusion experience.	Continue with Central Venue leagues and increase pupil participation in the School Games. Offer a wider range of new sports and encourage more pupils to take up sport after school.
Provide existing staff with PE training and updates	EW attended PE conference Staff received updates at staff meetings regarding current practice and safe practice.	£160	Opportunities for the subject leader to gain National updates, share best practice with schools in South Ribble and share details relating to quality marks and feedback to staff in school.	Further CPD needed for KS1 staff. Newly appointed co-coordinator to attend relevant training.

Attainment	Use of SR coaches to deliver well-resourced lessons which teachers could observe and teach themselves in the future. Ongoing teacher assessment after each taught unit. Lancs planning and assessment update given by EW at staff meeting. Plans collected and monitored from teachers and TAs who teach PE.	N/A	Deeper understanding of how to teach certain aspects of PE once observed SR coaches. See attachment for percentages of children entering/developing/secure at the end of their year group.	Continue with SR coaches in order for children to receive professional teaching and teachers to observe how to teach difficult aspects, e.g. OAA, dance and gymnastics. Teacher's to have more control over the teaching of PE.
